Swiss Approved Exporters

n.f.d.

The Federal Customs Administration may authorise exporters (hereafter referred to as Approved Exporter) to issue origin declarations disregarding any value limit. Such Approved Exporters are exempted from the obligation of signing origin declarations. Approved Exporter authorisations are applicable to all Free Trade Agreements of Switzerland/EFTA. The table below is updated on a regular basis (see date mentioned above). It contains the authorisation number and the exporter's name. Some of the Approved Exporters are granted several authorisations with different numbers in case of independent branches. Authorisation numbers with one or two digits are usually indicated on origin declarations preceded by zero(s). In some cases, the year of the approval is added. For example: Authorisation number 11 may be given as 11, 011, 0011 or 11/2001, 011/2001 or 0011/2001.
