SUBJECT : **Modifications on the Enhanced Value Reference Information System (e-VRIS)**

DATE : **18 February 2021**

In line with the continuous improvement of the E2M System, the Management Information System and Technology is ready to implement a new functionality in the enhanced Value Reference Information System (e-VRIS) which is the auto-substitution of value. This feature will automatically compute the Invoice value once the Examiner click the "Auto-Substitute" button when the accepted value from the look-up table of the E-VRIS was adapted. Please refer to the attached step-by-step procedure on how to perform the auto-substitution of value in the system (*Annex A*).

This new feature of the e-VRIS will be available in the E2M Production server on 20 February 2020.
