COMMISSIONER ISIDRO S. LAPEÑA
Bureau of Customs
Port Area, Manila

Dear **Commissioner Lapeña**:

Pursuant to the provisions of Section 1603 (f) of the Customs Modernization and Tariff Act (Republic Act 10863), this Commission is pleased to furnish your good Office with original copies of its Advance Rulings on Tariff Classification with TCC (AR) Nos. 18-016, 18-037, 18-039, 18-051, 18-067, 18-070, 18-074, 18-084, and 18-098, issued from 02 to 05 April 2018.

Thank you.

Very truly yours,

[Handwritten signature]

MARILOU P. MENDOZA
Chairperson

Encl: As stated.

5	REASONS FOR CLASSIFICATION
	<p>Heading 87.03 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers motor cars and other motor vehicles principally designed for the transport of persons (other than those of heading 87.02), including station wagons and racing cars. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that this heading covers motor vehicles of various types designed for the transport of persons; it does not, however, cover the motor vehicles of heading 87.02. The vehicles of this heading may have any type of motor (internal combustion piston engine, electric motor, gas turbine, combination of an internal combustion piston engine and one or more electric motors, etc.).</p> <p>Vehicles, which have the combination of an internal combustion piston engine and one or more electric motors, are known as “Hybrid Electric Vehicles (HEVs)”. For the purpose of mechanical propulsion, these vehicles draw energy from both a consumable fuel and an electrical energy/power storage device (e.g., electric accumulator, capacitor, flywheel/generator). There are various types of Hybrid Electric Vehicles (HEVs), which can be differentiated by their powertrain configuration (such as, parallel hybrids, series hybrids, power-split or series-parallel hybrids) and degree of hybridization (i.e., full hybrids, mild hybrids and plug-in hybrids). Plug-in Hybrid Electric Vehicle (PHEVs) are those which can recharge their electric accumulators by plugging them into an electrical power grid outlet or charging station.</p>

4 | **DESCRIPTION OF GOOD**

"BYD QIN"

Based on the technical brochure submitted, subject article is a completely built-up (CBU), front-wheel-driven, hybrid sedan with gross vehicle weight of 1,720 kg. It is powered by an electric motor (with maximum torque of 250 N•m/rpm) and a gasoline engine with a piston displacement of 1,497 cc (with maximum torque of 240/1750~3500 N•m/rpm). The electric motor is powered by a lithium-ion battery which is capable of being charged by plugging into an external source of electric power as well as by its on-board engine. Measuring 4,740 mm x 1,770 mm x 1,480 mm (LxWxH), subject article is used for the transport of up to five (5) persons.

5 | **REASONS FOR CLASSIFICATION**

Heading 87.03 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers motor cars and other motor vehicles principally designed for the transport of persons (other than those of heading 87.02), including station wagons and racing cars. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that this heading covers motor vehicles of various types designed for the transport of persons; it does not, however, cover the motor vehicles of heading 87.02. The vehicles of this heading may have any type of motor (internal combustion piston engine, electric motor, gas turbine, combination of an internal combustion piston engine and one or more electric motors, etc.).

Vehicles, which have the combination of an internal combustion engine and one or more electric motors, are known as "Hybrid Electric Vehicles (HEVs)". For the purpose of mechanical propulsion, these vehicles draw energy from both a consumable fuel and an electrical energy/power storage device (e.g., electric accumulator, capacitor, flywheel/generator). There are various types of Hybrid Electric Vehicles (HEVs), which can be differentiated by their powertrain configuration (such as, parallel hybrids, series hybrids, power-split or series-parallel hybrids) and degree of hybridization (i.e., full hybrids, mild hybrids and plug-in hybrids). Plug-in Hybrid Electric Vehicle (PHEVs) are those which can recharge their electric accumulators by plugging them into an electrical power grid outlet or charging station.

In view thereof, subject article is classified under AHTN 2017 subheading 8703.60.62, with a Most Favoured Nation (MFN) rate of duty of 30% ad valorem, and ASEAN-China Free Trade Area (ACFTA) rate of duty of 30% ad valorem, subject to submission of Certificate of Origin (CO) Form "E".

This ruling shall be valid for five (5) years from the date of issuance and shall continue to apply unless the law, facts, or circumstances supporting this ruling have changed.

4	DESCRIPTION OF GOOD
	“POSTECH PT-M-430 FAN-FREE MINI PC”
	<p>Based on the brochure submitted, subject article is a miniature processing unit for personal computers (PC) consisting of a central processing unit (CPU) (Intel Core Haswell I3 default 400SU, dual core, 1.7 GHz, 3M cache), internal memory (up to 8 Gb, double data rate three (DDR3L)), storage unit (2.5 inch hard disk drive (HDD)/ solid state drive (SSD)), and providing support to Windows 7, 8, and 10 and Linux operating systems (OS). It is housed in an aluminium case, with an overall dimension of 155 mm x 127 mm x 48 mm and weighs 1.0 kg. Power is supplied via power adapter (12 V, 3 A) through the built-in direct current (DC) jack. Subject article is capable of accepting connections via the following ports: High-Definition Multimedia Interface (HDMI), Recommended Standard (RS)-232, Registered Jack (RJ)-45, Universal Serial Bus (USB) 3.0, USB 2.0, and audio-in (microphone).</p>
	

5	REASONS FOR CLASSIFICATION
	<p>Heading 84.71 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers, among others, automatic data processing machines and units thereof. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that this heading covers, among others, automatic data processing machines and units thereof. Automatic data processing machines are machines which, by logically interrelated operations performed in accordance with pre-established instructions (program), furnish data which can be used as such or, in some cases, serve in turn as data for other data processing operations. This heading also covers separately presented constituent units of automatic data processing systems described above.</p> <p>In view thereof, subject article is classified under AHTN 2017 subheading 8471.50.10, with a Most Favoured Nation (MFN) rate of duty of zero, and ASEAN-China Free Trade Area (ACFTA) rate of duty of zero, subject to submission of Certificate of Origin (CO) Form “E”.</p> <p>This ruling shall be valid for five (5) years from the date of issuance and shall continue to apply unless the law, facts, or circumstances supporting this ruling have changed.</p>

5 | REASONS FOR CLASSIFICATION

Heading 85.25 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers, among others, television cameras, digital cameras and video camera recorders. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that this group covers cameras that capture images and convert them into an electronic signal that is transmitted as a video image to a location outside the camera for viewing or remote recording (i.e., television cameras). The cameras of this heading capture an image by focusing the image onto a light-sensitive device, such as a complementary metal oxide semiconductor (CMOS) or charge-coupled device (CCD). The light-sensitive device sends an electrical representation of the images to be further processed into an analogue or digital record of the images. Television cameras may or may not have an incorporated device for remote control of lens and diaphragm as well as for remote control of the horizontal and vertical movement of the camera (e.g., television cameras for television studios or for reporting, those used for industrial or scientific purposes, in closed circuit television (surveillance) or for supervising traffic). These cameras do not have any inbuilt capability of recording images.

In view thereof, subject article is classified under AHTN 2017 subheading 8525.80.40, with a Most Favoured Nation (MFN) rate of duty of 1% ad valorem, and ASEAN-China Free Trade Area (ACFTA) rate of duty of zero, subject to submission of Certificate of Origin (CO) Form “E”.

This ruling shall be valid for five (5) years from the date of issuance and shall continue to apply unless the law, facts, or circumstances supporting this ruling have changed.

4 DESCRIPTION OF GOOD

“FEMAX (IRON SUCROSE) 20 mg/mL SOLUTION FOR INJECTION (I.V.)”

Based on the brochure and certificate of product registration from the Food and Drug Administration (FDA) submitted, subject article is a sterile brown, aqueous complex composed of elemental iron, as active ingredient, with sodium hydroxide (for adjusting the pH for chemical stability) and water for injection, as excipients. Packed in 5 mL ampoules, it is indicated for the treatment of iron deficiency anemia in cases where there are clinical needs to deliver iron rapidly to iron stores, in patients who cannot tolerate oral iron therapy or who are non-compliant, and in active inflammatory bowel disease where oral preparations are ineffective. Subject article is to be administered by intravenous injection or by intravenous drip infusion and the dosage is determined by the haemoglobin level and body weight of the patient.

5 REASONS FOR CLASSIFICATION

Heading 30.04 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers medicaments (excluding goods of heading 30.02, 30.05 or 30.06) consisting of mixed or unmixed products for therapeutic or prophylactic uses, put up in measured doses (including those in the form of transdermal administration systems) or in forms or packings for retail sale. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that this heading covers medicaments consisting of mixed or unmixed products, provided they are, among others, put up in measured doses or in forms such as tablets, ampoules, capsules, cachets, drops or pastilles, medicaments in the form of transdermal administration systems, or small quantities of powder, ready for taking as single doses for therapeutic or prophylactic use.

In view thereof, subject article is classified under AHTN 2017 subheading 3004.90.99, with a Most Favoured Nation (MFN) rate of duty of 5% ad valorem.

This ruling shall be valid for five (5) years from the date of issuance and shall continue to apply unless the law, facts, or circumstances supporting this ruling have changed.

4 DESCRIPTION OF GOOD

“BLACK PEPPER OLEORESIN”

Based on the material safety data sheet, technical data sheet, and sample submitted, subject article is a black pepper oleoresin obtained by solvent extraction of the dry unripe berries of *Piper nigrum* L. (family: *Piperaceae*). It is in the form of olive green viscous liquid with the characteristic pungent aroma of black pepper. Subject article is packed in 20 kg blue jerrycans and is to be used as food flavouring.

5 REASONS FOR CLASSIFICATION

Heading 33.01 of the ASEAN Harmonized Tariff Nomenclature (AHTN) 2017 covers, among others, extracted oleoresins. The pertinent Harmonized System (HS) Explanatory Notes (EN) state that extracted oleoresins, also known in trade as “prepared oleoresins” or “spice oleoresins”, are obtained from natural cellular raw plant materials (usually spices or aromatic plants), either by organic solvent extraction or by super-critical fluid extraction. These extracts contain volatile odoriferous principles (e.g., essential oils) and non-volatile flavouring principles (e.g., resins, fatty oils, pungency constituents), which define the characteristic odour or flavour of the spice or aromatic plant. The essential oil content of these extracted oleoresins varies considerably depending on the spice or aromatic plant. These products are used principally as flavouring agents in the food industry.

In view thereof, subject article is classified under AHTN 2017 subheading 3301.90.90, with a Most Favoured Nation (MFN) rate of duty of 3% ad valorem, and ASEAN-India Free Trade Area (AIFTA) rates of duty of 1% ad valorem from 01 January to 30 December 2018 and zero from 31 December 2018 and onwards, subject to submission of Certificate of Origin (CO) Form “AI”.

This ruling shall be valid for five (5) years from the date of issuance and shall continue to apply unless the law, facts, or circumstances supporting this ruling have changed.
