In order to generate an efficient and uniform format on weekly and monthly reports, the following must be observed:

1. The column "Type of Meat/Poultry/Fish and Other Agricultural Products" will be replaced with "Description of Meat, Poultry, Fish and Agricultural Products" and must indicate the complete description of goods e.g., frozen chicken leg quarters, frozen boneless pork shoulder picnic cushion meat, frozen beef forequarter, shrimp feeds, Vietnamese white rice 5% broken, fresh mandarin oranges, frozen diced carrots.
2. Data on out-quota shipments or products subject to higher tariff rates in the absence of Minimum Access Volume Import Certificate (MAVIC) must be provided separately. Refer to "Annex A" for the prescribed format.

For strict compliance.
