**MEMORANDUM**

**TO :** ALL DISTRICT AND SUPPORT COLLECTORS  
ALL CHIEFS, FORMAL ENTRY DIVISION  
ALL FORMAL ENTRY DIVISION PERSONNEL  
ALL OTHERS CONCERNED

**FROM :** ATTY. EDWARD JAMES A. DY BUCO  
Deputy Commissioner, AOCG

**SUBJECT :** Observance of Proper Classification of Plastic Resins

**DATE :** October 23, 2018

---

You are hereby directed to observe the proper classification and rate of duty of shipments declared as plastic resins made of polyethylene (PE) and polypropylene (PP) especially those classified on non-specific description tariff code described as "Others" as this may be used to obtain a lower duty rate.

For strict compliance.

ASSOCIATION OF  
PETROCHEMICAL  
MANUFACTURERS OF  
THE PHILIPPINES

Time:	<i>4:40PM</i>
Control No:	<i>2018-07-092</i>

Dear Commissioner Lapeña:

Good day and we hope this letter finds you well.

The Association of Petrochemical Manufacturers of the Philippines (APMP) would like to thank the Bureau of Customs' relentless efforts in combating illicit trade into the country, including that of direct and technical smuggling of plastic resins, as these practices unfairly expose struggling local industries to undue competitive disadvantage. It was encouraging to hear the Bureau's anti-smuggling efforts under its Five-Point Priority Program, as laid out by BOC Director Yogi Filemon Ruiz during the Federation of Philippine Industries (FPI) Anti-illicit Trade Summit held last May 29, 2018. The Bureau, in joining the Philippine National Police (PNP) and FPI and other stakeholders in forming the Anti-Crime Council of the Philippines (ACCP) to combat illicit trade, including smuggling, would strengthen government's efforts in levelling the playing field for legitimate local manufacturers, and as such we believe it is an initiative that manufacturing industries must support.

In line with the thrust of the Bureau to combat illicit trade, we would like to bring to your attention some findings based on our members' monitoring of the importation of plastic resins, specifically polyethylene (PE) and polypropylene (PP), into the country, as follows:

**1. Importation of LLDPE under multiple tariff headings**

LLDPE is a type of PE resin which falls under tariff headings 3901.10.12 and 3901.10.92 as per Chapter 39 of the 2017 ASEAN Harmonized Tariff Nomenclature (AHTN) (see Appendix 1), as shown below:

		MFN Duty Rate
39.01	Polymers of ethylene, in primary forms.	
3901.10	- Polyethylene having a specific gravity of less than 0.94 :	
	-- In the form of liquids or pastes :	
3901.10.12	--- Linear Low Density Polyethylene (LLDPE)	10%
	-- Other :	
3901.10.92	--- Linear Low Density Polyethylene (LLDPE)	10%

Under the abovementioned tariff headings, LLDPE resins are given a 10% duty rate if imported from Most Favored Nation (MFN) countries. However, we have noticed that LLDPE resins from MFN countries are being imported under a variety of tariff headings, even those tariff headings that are at 3% duty rate for MFN.

Below is a summary of the volume of importations for LLDPE from MFN countries under multiple tariff headings in the past three years.

**Figure 1. LLDPE Imported through MFN Countries for 2015 – 2017**

AHTN Code	MFN Tariff Rate	LLDPE Imported Under MFN , in MT		
		2015	2016	2017
3901.10.12	10%	234.00	1,719.31	2,417.24
3901.10.19	10%	207.84	193.71	-
3901.10.92	10%	776.80	1,491.80	2,102.30
3901.10.99	10%	414.45	2,229.81	1,446.20
3901.20.00	10%	99.00	498.00	330.50
3901.90.20	3%	703.30	-	-
* 3901.90.90	3%	30,811.98	28,517.17	24,432.52
3902.10.90	10%	1,117.73	516.50	127.50
3902.30.90	10%	100.64	-	-

Source: Appendix 2. Raw File of LLDPE Imports through MFN Countries from 2015-2017, Bureau of Import Services (BIS)

Note that since 2015, much of the LLDPE being imported into the country is being imported under the non-specific tariff code 3901.90.90, whose description in AHTN 2017 is as "- Other", "- -Other".

If we calculate the difference in potential revenue for the recorded MFN importations of LLDPE, assuming these were imported at 10% tariff duty instead of just 3%, we estimate a significant loss for the Bureau at almost PhP 352 million total for 2015 to 2017.

**Figure 2. Additional Revenue<sup>1</sup> for LLDPE if Imported under Correct AHTN**

AHTN Code	MFN Tariff Rate Applied	Additional Revenues for LLDPE if Classified under 3901.10.12 or 3901.10.92 at 10% MFN Duty Rate, in PhP			
		2015	2016	2017	Total
3901.90.20	3%	2,763,556	-	-	2,763,556
3901.90.90	3%	130,428,669	114,991,421	103,687,649	349,107,739
<b>Total</b>		<b>133,192,224</b>	<b>114,991,421</b>	<b>103,687,649</b>	<b>351,871,294</b>

Source: Appendix 2. Raw File of LLDPE Imports through MFN Countries from 2015 – 2017, BIS

**2. Importation of PE and PP at 0% tariff, even if resins originated from non-AFTA countries**

For 2017, we have noted that 2,285 MT of combined PE and PP resins from the Middle East, North America, and Europe were imported at 0% tariff, instead of their appropriate

<sup>1</sup> Estimated revenue loss was computed using the formula: Declared Customs Value x % Difference in MFN Tariff Rate = Revenue Loss (assuming Declared Customs Value to BOC is correct).

tariff rates based on Chapter 39 of the 2017 AHTN. We estimate that an additional **PhP 14.4 million** in revenue for the government could have been generated if correct tariff rates were applied<sup>2</sup>.

**Figure 3. Estimated Government Revenue Losses Due to Incorrect Tariff Rates**

Origin	AHTN Code	Volume in MT	Declared Customs Value in Php	Correct Tariff Rate	Loss in Revenues in Php

<b>Total</b>		<b>2,285</b>	<b>146,454,914</b>	<b>3%</b>	<b>14,427,741</b>

Source: Appendix 3. Raw File of 0% Tariff Importations from 2015 – 2017, BIS

In addition, from 2016 to 2017, 916 MT of plastic resins were imported into the Philippines at 0% tariff through Singapore, the suppliers of which were Middle East-based companies that do not have manufacturing facilities in Singapore, but have representative offices there. It is our understanding that such entries are not entitled to 0% tariff. Applying the correct rates to these entries would translate to potentially another **PhP 5.4 million** revenue for the government.

**Figure 4. Estimated Government Revenue Losses**

Year	Declared Origin	Exporter	Actual Origin	AHTN	Volume in MT	Declared Customs Value	Correct Tariff Rate	Loss in Revenues in Php
2016	Singapore	SABIC ASIA PACIFIC PTE. LTD	Saudi Arabia	3901.10.99	25	1,540,466	10%	154,047
2017	Singapore	SABIC ASIA PACIFIC PTE LTD.	Saudi Arabia	3901.20.00	322	19,189,042	10%	1,918,904
	Singapore	SABIC ASIA PACIFIC PTE LTD	Saudi Arabia	3901.10.92	25	1,481,608	10%	148,161
	Singapore	SABIC ASIA PACIFIC	Saudi	3901.10.99	99	5,904,778	10%	590,478

<sup>2</sup> Estimated revenues were computed using the formula: Declared Customs Value x % MFN Tariff Rate = Revenue Loss (assuming Declared Customs Value to BOC is correct).

*Source: Appendix 3. Raw File of 0% Tariff Importations from 2015 – 2017, BIS*

**3. Importation of PP under tariff lines not specific to PP**

Likewise for PP, we have also noted that some PP imports originating from MFN countries were imported under the non-specific tariff code 3902.90.90, whose description in AHTN 2017 is as “- Other”, “- -Other”, instead of their appropriate tariff rates based on Chapter 39 of the 2017 AHTN. We estimate that an additional **PhP 10.1 million** in revenue for the government could have been generated if correct tariff rates of 10% were applied.

**Figure 5. Additional Revenue<sup>4</sup> for PP if Imported under Correct AHTN**

AHTN Code	MFN Tariff Rate Applied	Additional Revenues for PP if Classified under 3902.10.40 or 3902.30.90 at 10% MFN Duty Rate in PhP			
		2015	2016	2017	Total
3902.90.90	3%	4,750,330	3,888,104	1,444,637	<b>10,083,070</b>

*Source: Appendix 4. Raw File of PP from MFN Countries Imported at 3% Tariff, from 2015 – 2017, BIS*

It is our earnest desire that by bringing these matters to the Bureau's attention, the Bureau would be able to more effectively apply the appropriate tariff headings and corresponding tariff rates, and hence collect the correct revenues, which is one of the primary objectives of the Bureau's Five-Point Priority Program. Consequently, curbing these irregular transactions moving forward will help to protect legitimate local businesses and the domestic market from the negative impacts of illicit trade.

Should you or the Imports Assessment team wish to discuss these matters in more detail, please feel free to reach us through our Executive Director Mr. Homer Maranan via +632 753 4189 or through email at apmp010a@gmail.com.

Respectfully,

  
Patrick Henry O. Go  
Chairman

  
Concepcion I. Tanglao  
President

<sup>4</sup> Estimated revenue loss was computed using the formula: Declared Customs Value x % Difference in MFN Tariff Rate = Revenue Loss (assuming Declared Customs Value to BOC is correct).

**APPENDIX 1:**  
**2017 ASEAN Harmonized Tariff Nomenclature**  
**for Chapter 39, covering PE and PP**  
**under 39.01.xx -39.02.xx**

**SECTION VII**  
**PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF**

**Notes.**

1. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this Section and are intended to be mixed together to obtain a product of Section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are :
  - (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;
  - (b) presented together; and
  - (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.
2. Except for the goods of heading 39.18 or 39.19, plastics, rubber, and articles thereof, printed with motifs, characters or pictorial representations, which are not merely incidental to the primary use of the goods, fall in Chapter 49.

**Chapter 39**  
**Plastics and articles thereof**

**Notes.**

1. Throughout the Nomenclature the expression "plastics" means those materials of headings 39.01 to 39.14 which are or have been capable, either at the moment of polymerisation or at some subsequent stage, of being formed under external influence (usually heat and pressure, if necessary with a solvent or plasticiser) by moulding, casting, extruding, rolling or other process into shapes which are retained on the removal of the external influence.  
Throughout the Nomenclature any reference to "plastics" also includes vulcanised fibre. The expression, however, does not apply to materials regarded as textile materials of Section XI.
2. This Chapter does not cover :
  - (a) Lubricating preparations of heading 27.10 or 34.08;
  - (b) Waxes of heading 27.12 or 34.04;
  - (c) Separate chemically defined organic compounds (Chapter 29);
  - (d) Heparin or its salts (heading 30.01);
  - (e) Solutions (other than collodions) consisting of any of the products specified in headings 39.01 to 39.13 in volatile organic solvents when the weight of the solvent exceeds 50 % of the weight of the solution (heading 32.08); stamping foils of heading 32.12;
  - (f) Organic surface-active agents or preparations of heading 34.02;
  - (g) Run gums or ester gums (heading 38.06);
  - (h) Prepared additives for mineral oils (including gasoline) or for other liquids used for the same purposes as mineral oils (heading 38.11);
  - (i) Prepared hydraulic fluids based on polyglycols, silicones or other polymers of Chapter 39 (heading 38.19);
  - (k) Diagnostic or laboratory reagents on a backing of plastics (heading 38.22);
  - (l) Synthetic rubber, as defined for the purposes of Chapter 40, or articles thereof;
  - (m) Saddlery or harness (heading 42.01) or trunks, suitcases, handbags or other containers of heading 42.02;
  - (n) Plaits, wickerwork or other articles of Chapter 46;
  - (o) Wall coverings of heading 48.14;
  - (p) Goods of Section XI (textiles and textile articles);
  - (q) Articles of Section XII (for example, footwear, headgear, umbrellas, sun umbrellas, walking-sticks, whips, riding-crops or parts thereof);
  - (r) Imitation jewellery of heading 71.17;
  - (s) Articles of Section XVI (machines and mechanical or electrical appliances);
  - (t) Parts of aircraft or vehicles of Section XVII;
  - (u) Articles of Chapter 90 (for example, optical elements, spectacle frames, drawing instruments);

- (v) Articles of Chapter 91 (for example, clock or watch cases);
  - (w) Articles of Chapter 92 (for example, musical instruments or parts thereof);
  - (x) Articles of Chapter 94 (for example, furniture, lamps and lighting fittings, illuminated signs, prefabricated buildings);
  - (y) Articles of Chapter 95 (for example, toys, games, sports requisites); or
  - (z) Articles of Chapter 96 (for example, brushes, buttons, slide fasteners, combs, mouthpieces or stems for smoking pipes, cigarette-holders or the like, parts of vacuum flasks or the like, pens, propelling pencils, and monopods, bipods, tripods and similar articles)
3. Headings 39.01 to 39.11 apply only to goods of a kind produced by chemical synthesis, falling in the following categories :
- (a) Liquid synthetic polyolefins of which less than 60 % by volume distils at 300 °C, after conversion to 1,013 millibars when a reduced-pressure distillation method is used (headings 39.01 and 39.02);
  - (b) Resins, not highly polymerised, of the coumarone-indene type (heading 39.11);
  - (c) Other synthetic polymers with an average of at least 5 monomer units;
  - (d) Silicones (heading 39.10);
  - (e) Resols (heading 39.09) and other prepolymers.
4. The expression "copolymers" covers all polymers in which no single monomer unit contributes 95 % or more by weight to the total polymer content.
- For the purposes of this Chapter, except where the context otherwise requires, copolymers (including co-polycondensates, co-polyaddition products, block copolymers and graft copolymers) and polymer blends are to be classified in the heading covering polymers of that comonomer unit which predominates by weight over every other single comonomer unit. For the purposes of this Note, constituent comonomer units of polymers falling in the same heading shall be taken together.
- If no single comonomer unit predominates, copolymers or polymer blends, as the case may be, are to be classified in the heading which occurs last in numerical order among those which equally merit consideration.
5. Chemically modified polymers, that is those in which only appendages to the main polymer chain have been changed by chemical reaction, are to be classified in the heading appropriate to the unmodified polymer. This provision does not apply to graft copolymers.
6. In headings 39.01 to 39.14, the expression "primary forms" applies only to the following forms :
- (a) Liquids and pastes, including dispersions (emulsions and suspensions) and solutions;
  - (b) Blocks of irregular shape, lumps, powders (including moulding powders), granules, flakes and similar bulk forms.
7. Heading 39.15 does not apply to waste, parings and scrap of a single thermoplastic material, transformed into primary forms (headings 39.01 to 39.14).
8. For the purposes of heading 39.17, the expression "tubes, pipes and hoses" means hollow products, whether semi-manufactures or finished products, of a kind generally used for conveying, conducting or distributing gases or liquids (for example, ribbed garden hose, perforated tubes). This expression also includes sausage casings and other lay-flat tubing. However, except for the last-mentioned, those having an internal cross-section other than round, oval, rectangular (in which the length does not exceed 1.5 times the width) or in the shape of a regular polygon are not to be regarded as tubes, pipes and hoses but as profile shapes.
9. For the purposes of heading 39.18, the expression "wall or ceiling coverings of plastics" applies to products in rolls, of a width not less than 45 cm, suitable for wall or ceiling decoration, consisting of plastics fixed permanently on a backing of any material other than paper, the layer of plastics (on the face side) being grained, embossed, coloured, design-printed or otherwise decorated.
10. In headings 39.20 and 39.21, the expression "plates, sheets, film, foil and strip" applies only to plates, sheets, film, foil and strip (other than those of Chapter 54) and to blocks of regular geometric shape, whether or not printed or otherwise surface-worked, uncut or cut into rectangles (including squares) but not further worked (even if when so cut they become articles ready for use).
11. Heading 39.25 applies only to the following articles, not being products covered by any of the earlier headings of sub-Chapter II :
- (a) Reservoirs, tanks (including septic tanks), vats and similar containers, of a capacity exceeding 300 l;

- (b) Structural elements used, for example, in floors, walls or partitions, ceilings or roofs;
- (c) Gutters and fittings therefor;
- (d) Doors, windows and their frames and thresholds for doors;
- (e) Balconies, balustrades, fencing, gates and similar barriers;
- (f) Shutters, blinds (including Venetian blinds) and similar articles and parts and fittings thereof;
- (g) Large-scale shelving for assembly and permanent installation, for example, in shops, workshops, warehouses;
- (h) Ornamental architectural features, for example, flutings, cupolas, dovecotes, and
- (i) Fittings and mountings intended for permanent installation in or on doors, windows, staircases, walls or other parts of buildings, for example, knobs, handles, hooks, brackets, towel rails, switch-plates and other protective plates.

**Subheading Notes.**

1. Within any one heading of this Chapter, polymers (including copolymers) and chemically modified polymers are to be classified according to the following provisions:
  - (a) Where there is a subheading named "Other" in the same series:
    - (1) The designation in a subheading of a polymer by the prefix "poly" (for example, polyethylene and polyamide-6,6) means that the constituent monomer unit or monomer units of the named polymer taken together must contribute 95 % or more by weight of the total polymer content.
    - (2) The copolymers named in subheadings 3901.30, 3904.40, 3903.20, 3903.30 and 3904.30 are to be classified in those subheadings, provided that the comonomer units of the named copolymers contribute 95 % or more by weight of the total polymer content.
    - (3) Chemically modified polymers are to be classified in the subheading named "Other", provided that the chemically modified polymers are not more specifically covered by another subheading.
    - (4) Polymers not meeting (1), (2) or (3) above are to be classified in the subheading, among the remaining subheadings in the series, covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series of subheadings under consideration are to be compared.
  - (b) Where there is no subheading named "Other" in the same series:
    - (1) Polymers are to be classified in the subheading covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series under consideration are to be compared.
    - (2) Chemically modified polymers are to be classified in the subheading appropriate to the unmodified polymer.
2. For the purposes of subheading 3920.43, the term "plasticisers" includes secondary plasticisers.

Table with columns for date, company name, product description, and numerical values. The table is organized into two main sections, one on the left and one on the right, separated by a vertical line. Each row contains a date, a company name, a detailed product description, and several numerical values representing different metrics or prices.
