Topic: Certificate of Origin (CO) verification website
ICC World Chambers Federation International CO Accreditation Chain

As you are aware, the ICC World Chambers Federation (WCF) International CO Accreditation Chain has now been in operation since September 2012.

In support of this service is our secured online verification website which has been operational since January 2014. The site offers Customs authorities a centralized portal to verify the authenticity of COs issued by participating chambers.

Please find attached to this letter the full list of accredited chambers to date, that have implemented the ICC WCF CO Label on their CO forms. Four new chambers from Denmark, Norway, Poland and the United States of America were accredited in 2017.

ICC WCF would welcome any support your office could lend in encouraging chambers in your country to join the International CO Accreditation Chain and benefit from our support services, including training.

The chambers that are uploading their COs into our central registration system are:

Table with 2 columns: Country and Chamber Name. Rows include Belgium, Bulgaria, Brazil, China, France (multiple chambers), Iran, Italy, Netherlands, and Portugal.

Based on the ICC World Chambers Federation International CO Guidelines, the Chain entitles joining Chambers to use the instantly identifiable international ICC WCF CO quality label on CO forms. This label recognizes that chambers follow transparent and responsible procedures in issuing COs. The Chain provides additional assurance to customs and traders to the important role Chambers play in trade facilitation services, competent and trusted third parties and partners.

The CO verification website reinforces the mutual trust and partnership between Customs authorities and Chambers, and helps provide the additional reassurance to Customs that COs are issued in accordance to internationally accepted best practices.

# 4 advantages of CO Verification Website

The CO Verification website provides Customs authorities and Chambers a global platform to easily verify and check the authenticity of COs and underlies the importance of eCO delivery and recognition by Chambers and other authorities.

1

## ACCREDITATION

Provided to CO Accreditation Chain members, the CO online verification website reinforces the internationally accepted standards established by the International CO Guidelines.

2

## SECURITY

To guarantee the authenticity of the CO information, only Chambers and their technical providers are allowed to transfer CO information to the global platform.

The CO Verification website allows Customs authorities, embassies and any other bodies involved in the CO verification process to check the authenticity of the CO information online before as well as on the arrival of goods.
