Subject: Clearances for the importation of oil sample kit and export of such kit containing oil sample for analysis are not required

Dear Ms. Abuan:

This has reference to your e-mail dated 26 June 2020 inquiring about the procedure and requirements on the importation of oil sample kit (empty bottle/container) and export of such kit containing oil sample for analysis. It is noted that the oil sample will be coming from your hydraulic system. Please be informed that the importation and export of the said materials are not covered by Chapter 10 of DENR Administrative Order (DAO) No. 2013-22: *Revised Procedures and Standards for the Management of Hazardous Wastes (Revising DAO 2004-36)*.

In this regard, Importation and Export Clearances are not required from this Bureau. However; this does not preclude you from complying with the requirements of other government agencies that have mandate or jurisdiction regulating the same.

We hope we have addressed your concern.

Very truly yours,
