Memorandum

To : All District Collectors
OIC, BOC PEZA Offices
All Others Concerned

From : **REY LEONARDO B. GUERRERO**
Commissioner *8* **MAR 12 2021**

Subject : **SUSPENSION OF THE IMPLEMENTATION OF THE ABMS
FOR TRANSITS UNDER CMO 30-2020**

Date : 12 March 2021

BOC-09-19728

In order not to affect the delivery of imported materials to PEZA-registered enterprises due to errors encountered in the tagging of "RELEASE" in the system for transit shipments thus causing delays in the tagging of shipments upon their arrival at the PEZA zones, the implementation of the Automated Bonds Management System (ABMS) for Transit Shipments under CMO 30-2020 is hereby suspended from March 15, 2021 up to April 4, 2021 to address some technical and administrative issues encountered.

While the implementation is suspended, processing and charging against the GTSBs shall be done manually by the Ports.

Tagging "ARRIVED" is still mandatory to enable the flow-back/crediting of the balance of the GTSB whether manually or under the ABMS.

All District/Port Collectors are further directed to ensure that there is enough personnel tasked to do the tagging upon arrival of transit shipments at the PEZA zones.

For strict compliance.
