4. The highest bid shall be declared as the winner except when clustering occurs. Clustering occurs when the difference between the highest and the second highest bid is within ten percent (10%) of the highest bid. In such case, an open-bidding shall be conducted among the bidders of the particular sale lot who are present with the highest bid serving as the new floor price. Only bids raised by three percent (3%) more than the new floor price shall be considered and the highest bid in the open-bidding shall be declared as the winner. 9. The sale lots subject of magna scale weighing shall be released only after they have undergone such weighing. Should the result of the *magna scale weighing* for a particular sale lot differ from the approximate weight of the said sale lot stated in this Notice, the following shall take effect:
 - a. Any weight found in excess of the approximate weight of the contents of those containers subject to magna scale weighing shall not be considered as part of the sale lot offered for auction, provided, however, that in this case it is determined that there is excess weight, the winning bidder may purchase the excess

weight at the pro-rated bid price per kilo of the winning bidder, provided further that the winning bidder shall purchase the whole weight of the excess articles and indicate his intention to do so within one day from discovery of the excess.

a.1. *Pro-rated* bid price per kilo shall mean the total bid amount given by the winning bidder during the bidding process divided by the published approximate weight of the sale lot. To compute for the total price to be paid for purchasing the whole sale lot, the formula to be used is as follow:

$$\text{Total Amount to be Paid} = \frac{\text{Bid Price} \times \text{Actual Weight}}{\text{Approximate weight}}$$

To illustrate: assuming that the winning bid price for the Sale Lot 0xx-2015, which has a published approximate weight of 1,872,000 kilograms, PhP50,000.00. if the sale lot, after being subject to magna scale weighing, is determined to be heavier, say 1,900,000 kilograms, and the winning bidder wishes to acquire the excess, he would have to pay a total of

50,747,863.25. The total amount has been arrived at by using the aforesaid formula, thus:

$$\text{Total Amount to be Paid} = \frac{\text{PhP}50,000.00 \times 1,900,000 \text{ kgs.}}{1,872,000 \text{ kgs.}}$$

Total Amount to be Paid= PhP50,747,863.25

a.2. Should the winning bidder decide to purchase the excess weight, he shall pay the amount for the excess weight within five (5) days from demand thereof by the District Collector, or his duty authorized representative; otherwise, the excess quantity shall not be considered to have been sold and shall be offered for in the next public auction of the port.

10. In case the quantity determined after the magna scale weighing is less than the approximate weight in this Notice, the winning bidder shall be entitled to a proportionate adjustment of the bid amount based on the actual weight. The same formula as illustrated in 11. a. 1 shall be used in computing for the adjustment in the bid amount based on the actual weight.
