A modernized and credible customs administration that upholds good governance and is among the world's best

MEMORANDUM

FOR : ALL OCOM AND POM OFFICIALS AND PERSONNEL
ALL OTHERS CONCERNED

FROM :  **MICHAEL C. FERMIN**
Acting Deputy Commissioner
Management Information Systems and Technology Group

SUBJECT : NOTICE REGARDING ONGOING NETWORK STRUCTURED
CABLING PROJECT

DATE : 06 May 2024

As part of our ongoing efforts to enhance the network connectivity within the compound, we would like to inform you about the upcoming activities related to the Network Structured Cabling project to be conducted by Trends and Technologies, Inc.

This project entails both cabling and carpentry works aimed at improving the current BOC network connectivity. While these enhancements are crucial for optimizing our network infrastructure, we anticipate certain disturbances throughout the duration of the project.

Please be prepared for potential disruptions such as noise and movement of office equipment/furniture. We understand that these disturbances may inconvenience you and your team, and we sincerely apologize in advance for any inconvenience caused.

Your cooperation and understanding during this period are greatly appreciated. Should you have any questions or concerns regarding the project, please do not hesitate to reach out to MISTG, Systems Management Division (SMD).

Thank you for your attention to this matter.
